

Total Makeover for UCSI students: An Exfoliating Experience

An exfoliating experience indeed as Ginvera treated a total of 30 students from UCSI to an hour long workshop on how to keep your face youthful and blemish free.

Ginvera, a leading cosmetics and hygiene brand in the market, set up a booth in the lobby area to promote their new line of facial care products recently. With a team of qualified cosmetics consultants, they set out to educate the UCSI students on facial hygiene. A workshop was conducted to allow the students to gain first-hand experience in cleaning your face the proper way with a line of Ginvera facial care products.

Students were treated to a total makeover by professionals

The students enjoyed the experience because not only did they manage to get a free goodie bag worth over a hundred Ringgit from Ginvera, but they managed to gain invaluable experience on how to maintain healthy looking skin. The students also had the opportunity to have their before and after photographs taken by professionals.
