

REMINDER FROM THE MANAGEMENT: ***NEW PARKING REGULATIONS***

Dear Esteemed Colleagues and Students,

As you may have noticed by now, we are pleased to inform you that an additional 300 parking lots are now available on the hill of our campus, open to all staff and students.

Previously, many of us have had the unfortunate and regrettable experience of cars being double parked or parked indiscriminately around our campus grounds, but with the opening of these additional car park lots we aim to avoid any further inconvenience to staff and students in this respect.

As such, we ask for your kind cooperation: if you are parking in our campus, do so only at the designated parking bays, in order for us to help each other make the campus more 'car-park' friendly.

E-mails and notices posted around the campus will advice and inform staff and students of the various requirements and regulations surrounding this procedure, and we endeavour to work towards a pleasant and pleasurable parking experience on UCSI's campus.

We welcome any suggestions or comments from staff and students on any other ways we may further improve our service to you. Please do not hesitate to contact us via communications@ucsi.edu.my with your suggestions.

*With best wishes,
UCSI Management Board*
