**COMPANY PROFILE**

Merck is a global research-driven pharmaceutical company dedicated to putting patients first. They discover, develop, manufacture, and market vaccines and medicines to address unmet medical needs, directly and through alliances with their partners. Their mission is to provide people with superior products and services by developing innovations and solutions that improve the quality of life. The focus of research at Merck is on innovation in all areas of drug research and development, working on programs to satisfy unmet medical needs.

Merck’s product line includes a broad portfolio of highly innovative prescription products in important therapeutic areas. These include medicines to treat high blood pressure, elevated cholesterol levels, osteoporosis, asthma, benign prostatic hyperplasia, arthritis, migraine, glaucoma, emesis, infectious diseases (antibacterial, antifungal, and antiviral agents), and vaccines to prevent childhood diseases and hepatitis A and B.
